17FOR17

VERDENSMÅLENE FRA 17 NYE VINKLER

17 danske designere har hver skabt en original plakat for et af FN's 17 verdensmål for at skabe en dybere indsigt i og kendskab til de 17 Verdensmål og styrke koblingen mellem designere og samfundsoplysning.

17FOR17 er en plakatkampagne, udviklet af Chora Connection i samarbejde med 17 danske designere, der skal udbrede kendskabet til FN's 17 Verdensmål i Danmark.

Designeren har en helt central rolle både som formidler af et komplekst budskab og som medskaber af fortællingen om os som mennesker og samfund i en bæredygtig fremtid.

17FOR17 skaber derfor en stærkere kobling mellem de skabende kunstnere og den bæredygtige omstilling, som FN's 17 Verdensmål er officielt udtryk for.

FN's 17 Verdensmål og 169 delmål blev i 2015 vedtaget af 193 lande, som forpligter sig til at løse klodens største problemer inden 2030. Danmark har et stort ansvar for og pligt til at understøtte en bæredygtig global udvikling, samt realisere målene i en dansk kontekst.

Dansk plakatkunst har en lang tradition for at demokratisere det æstetiske udtryk og bidrage til stærk formidling. Den tradition ønsker vi at videreføre i 17 forskellige versioner af et samlet budskab: En bæredygtig fremtid for verden.

Samlingen viser 17 meget forskellige, nutidige plakatudtryk og udgør samlet et billede af den mangfoldighed, som også verdensmålene rummer.

Plakatsamlingen skal udstilles på meget forskellige steder fra FN Byen til advokatfirmaer, gymnasier og styrelser med det formål, at kommunikere Verdensmålene bredt i det danske samfund.

The Designers of the Chora Connection UN Poster Project
